## DECLARATION

RE: patent portfolio of Micro Turbine Technology,  
a private limited company in Eindhoven, The Netherlands

The undersigned,

Alwine E. Dekker-Garms,  
holding a masters degree in mechanical engineering  
from the Eindhoven University of Technology since 1996,  
officially registered Dutch patent attorney since 2001,  
officially registered European patent attorney since 2001,  
owner of RaTiO I/P, an independent intellectual property private practice established in 2014,

declares that as of 2015, she is responsible for the patent portfolio of Micro Turbine Technology as outside counsel; and that, in her capacity as outside counsel:

- she manages the patent portfolio of Micro Turbine Technology in close cooperation with Micro Turbine Technology's CEO;
- she regularly performs substantive work in the patent portfolio of Micro Turbine Technology, including drafting patent applications and responding to Office Actions; and
- she regularly performs administrative work in the patent portfolio of Micro Turbine Technology, including watching deadlines and performing maintenance fee payments;

and that in view of her professional status of being a patent attorney in good standing and her years of involvement with the patent portfolio of Micro Turbine Technology, she is entitled to establish that:

- Micro Turbine Technology is an innovative company owning a valuable patent portfolio including different patent families;
- Micro Turbine Technology handles their patent portfolio in a responsible and sensible way, making use of the services of a registered patent attorney in good standing;
- Micro Turbine Technology invests in upholding their patent rights in Europe and throughout the world, including China, Japan, Canada and the US, by having the necessary annual maintenance fee payments done; and
- Micro Turbine Technology keeps watch of new inventions and invests in protecting new inventions by having patent applications prepared and filed.
